YITHINC WINDOWS & DOORS

Established in 2019, Yithinc specializes in engineering and manufacturing premium aluminum window and door solutions for global markets. We pride ourselves on delivering customized products that precisely meet the architectural demands of diverse climates, design preferences, and project specifications across international markets. With years of proven expertise, we've become a trusted partner for construction teams worldwide, combining innovative technology with rigorous quality standards. Our commitment extends beyond manufacturing - we provide comprehensive support from initial consultation to final installation, ensuring complete customer satisfaction.

AT YITHINC, WE MAKE EXCELLENCE ACCESSIBLE:

- Smart Selection -Intuitive product solutions for every need
- Confident Quality - Engineered for lasting performance and peace of mind-
- Global Standards - Locally adapted solutions with international quality

Easy Think,Easy Choice!

FULLY AUTOMATIC HIGH-PRECISION CUTTING AND MILLING MACHINE

This machine can perform drilling and milling of grooves on all four sides of profiles, followed by cutting at any angle between $\pm 45^\circ$. It is capable of processing various openings on system doors and window profiles, including glue injection holes, pin holes, drainage holes, sharp corners, protective corners, handle holes, and lock body holes. With a single loading, it completes all machining processes for aluminum profile components in door and window production, achieving a monthly capacity of 5,000 square meters.

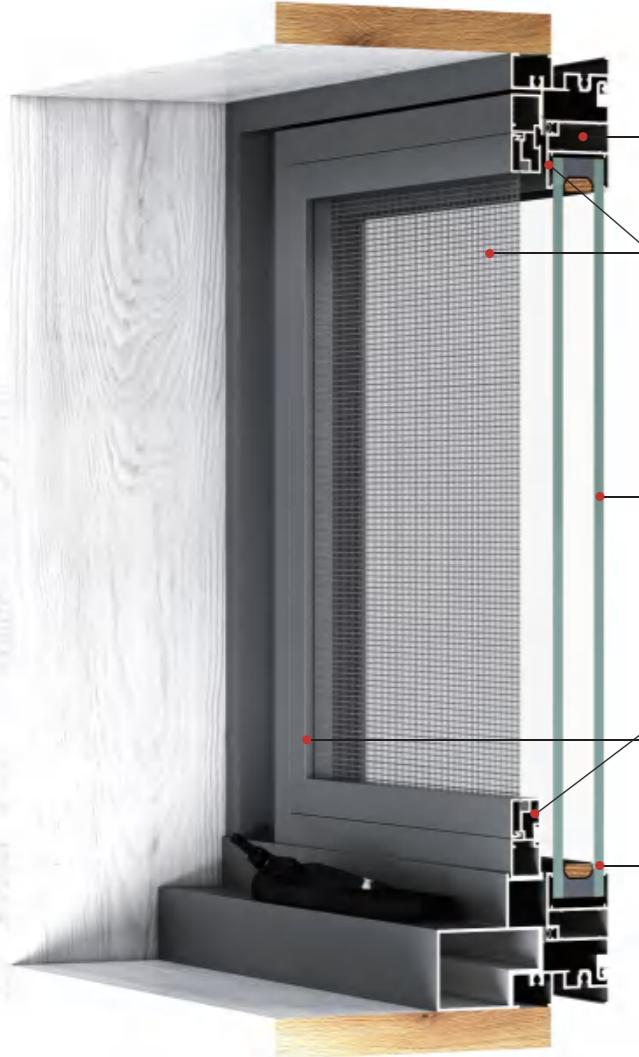

FULLY AUTOMATIC SILICONE SEALANT DISPENSING MACHINE

Dispensing Speed: 10-15 meters/minute
Smart Detection: Automatically identifies window/door series and dimensions
Precision Application: Delivers clean, smooth, and flawlessly even sealant beads
Stable Quality: Consistent results with minimal waste
High Efficiency: Monthly production capacity of 10,000 sq.m

YC50 AWNING WINDOW

- 1.Slim Design,elegant and graceful
- 2.Removable 304 stainless steel screen
- 3.Fully 1.4mm aluminium thickness
- 4.5+9A+5mm double glazing
- 5.100% primary aluminium
- 6.5-Year guaranteed hardware accessories
- 7.EPDM sealing strip

YC75 AWNING WINDOW

- 1.High performance thermal break awning window
- 2.Seamless design, elegant, robust and durable
- 3.Removable 304 stainless steel screen
- 4.Fully 1.4mm aluminium thickness
- 5.5+12A+5mm double glazing
- 6.100% primary aluminium
- 7.5-Year guaranteed hardware accessories
- 8.EPDM sealing strip
